

BRIAN P. HENRY APPOINTED TO NFPA 921 TECHNICAL COMMITTEE

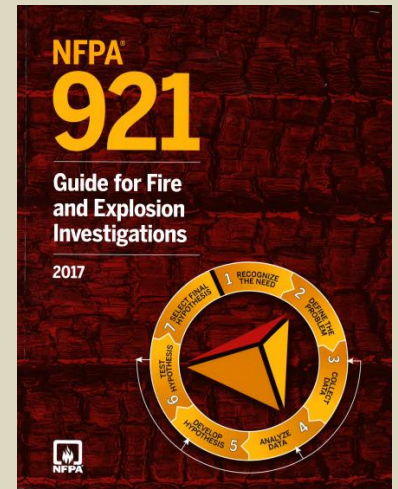

September 6, 2017

Our Firm President, Brian P. Henry, has been appointed to the Technical Committee for *NFPA 921: Guide for Fire & Explosion Investigations*, the seminal authority in the world for fire origin and cause investigations and analysis. Brian has been appointed to represent the National Association of Fire Investigators, which he serves as General Counsel.

Brian has significant litigation and trial experience in all insurance areas, with a focus on fire science and product liability. Over the past two decades, Brian has served as national trial and coordinating counsel to various product manufacturers and a Fortune 500 insurer. He is nationally-recognized for his knowledge and experience on expert preclusion matters, writing and lecturing extensively on the subject and handling more than a hundred *Daubert*-type challenges throughout the United States.

Brian has also served as an expert witness on the standard of care for attorneys handling fire science cases, and is one of only a handful of attorneys to obtain the Certified Fire and Explosion Investigator qualification. He is an adjunct instructor at both the National Fire Academy and the National Center for Explosives Training & Research. Brian also chairs the Insurance Committee of the International Association of Arson Investigators, and is a frequent lecturer at IAAI events and other seminars across the country.

Please join us in congratulating Brian on this appointment!
